(b) For each area listed above, provide details of the carrier's progress in completing translation and other work necessary to route 911 calls to the identified emergency response point.

With the exception of Iroquois County, Illinois, AT&T Wireless Services, Inc. ("AWS") has completed all translation and other work necessary to route 911 calls to the identified emergency response point. While AWS has completed the translation and other work necessary to route 911 calls in Iroquois County, Illinois, it has yet to identify the designated emergency response point to receive such calls. AWS is currently in discussions with the Illinois State Police to determine the appropriate routing and delivery of 911 calls for Iroquois County, Illinois. AWS expects that its efforts to determine the appropriate routing for 911 calls in Iroquois County, Illinois will be completed well before the Commission's nine month deadline for carriers to complete the transition to routing 911 calls to the designated PSAP.

(c) For each area listed above, provide the date or projected date that transition to the 911 abbreviated dialing code will be completed.

The 911 abbreviated dialing code is available to all subscribers and roamers accessing the AWS network.

Section 3

911 Implementation Problems

(a) Describe any problems the reporting carrier has encountered in identifying 911 number call routing points. Describe any other operational problems carrier has experienced during the initial transition stages.

As noted in Section 2(b), with the exception of Iroquois County, Illinois, AWS has not encountered any problems in identifying 911 number call routing points.

(b) Where the reporting carrier has experienced 911 implementation problems, describe any efforts the carrier has made to coordinate with public safety agencies and state and local authorities.

Not applicable.
